Motah Chronicles

by Phillel

Rewired in Consciousness

HIERARCHAL BOARD MEDITATION: Deep in meditation, I realized that as a result of the Christmas energy influx, all had been “rewired” in my consciousness. But the new power, to further the analogy, had not yet been plugged in.

While I pondered the significance of this development, St. Germain overshadowed me with hieronics. Working with the subtle lines of force in my auric field, he began to initialize and to fine-tune the connections. I experienced an intimate light-body bonding with him, and received that he will now be able to work through me with increased power.

Indeed, as a result of what the Hierarchy has achieved with the light workers in the recent Christmas cycle, we will demonstrate a higher octave of light-body anchoring, and our demonstrations will have a greater impact on mass consciousness.

Ending the session, St. Germain said to me: “My son, rest in the peace of your I Am Self. All will unfold in God’s good time.”

I had been changed vibrationally by my master’s contact. For a few hours afterwards, my crown chakra remained activated, and I felt somewhat dizzy.

— *January 14, 2009*

Conrad Projects to Mideast

DREAM: Through my vessel and consciousness as a hieronic instrument, space commander Conrad broadcast a series of powerful projections, using the sword of truth to transmute and to bring peace to the Middle East.

Simultaneously, as if projected into a vibrant hologram, I relived the entire sweep of human history in the region. Before my very eyes unfolded countless wars and strife amongst peoples and tribes down through the ages. For each time period and karmic portrayal, Conrad pronounced a specific decree, delivered in the associated language of that incarnated group.

Each solemn decree actually manifested in solid form as a sword of truth, each inserted into its own elegant sheath. As Conrad spoke the words of truth, the swords ceremoniously were lined up in a row, one after another.

In a later dream segment, I related to Robert and others the extraordinary experience of Conrad's hieronic projections to the Middle East.

Note: In the Middle East, fighting continues between Israelis and Hamas in the Gaza Strip, where hundreds of people have been killed in recent weeks. Diplomatic efforts this weekend continue to press for a sustainable cease-fire.

Later this day, Israel agreed unilaterally to an Egyptian-brokered ten-day cease-fire. On the 18th, Hamas also agreed to a cease-fire, and Israeli troops began pulling out of Gaza after a twenty-two-day mission.

Interpretation: In his contact on January 7th, just after the infusion of higher plane energy during the Christmas cycle [see *I Am Nation News* #62, January-February 2009], Conrad communicated the following:

“We are assessing the impact of the recent frequency change. This is a worldwide net assessment. Stand by for our signals. Conrad, over and out.”

As indicated in this dream, it seems clear that as a result of their hieronic assessment of the planetary situation, the Hierarchy had determined to issue a specific series of decrees, using the First Ray sword of truth, to counterbalance and help correct the karmically embroiled mess in the Mideast.

I take this also to be a clue for all of us in our spiritual work. As Conrad demonstrated in the dream, our decrees and visualizations must be incisive and clear, and bring to each challenge and problem we face all the precise corrective countermeasures to instill right thinking and right action. In confronting error, we can't be namby-pamby — that is, weak or indecisive or ambivalent — but must hold firmly in our minds and hearts the divine truth that must manifest.

What is the right thought, what is the right action to take in wielding the sword of truth? The highest commandment to heal our convoluted karma on Earth is: *Love God and Love One Another*.

— January 17, 2009

Levitation by Space Beam

DREAM: Home in Texas, I sat in meditation with a group, led by Yolanda. Some former Mark-Age staff members were present, including Zan-Thu, as well as some of my personal family. As soon as the meditation began, I was contacted by Conrad, who clamped me with a very powerful hieronic beam. The energy surge was almost overwhelming.

Through space beam control, Conrad levitated me as high as the vaulted ceiling, and moved me back and forth above the group, then transferred me outside to the back yard, where I remained suspended about ten feet off the ground. Hovering just above the treetops were a couple of large scout ships, which obviously were assisting the levitation.

When the demonstration ceased and I was lowered back to the group, I asked them what actually had occurred *physically* during the hieronic contact. Had they witnessed a physical levitation?

Interpretation: Symbolically, the levitation demonstrates Conrad's spacecraft assistance in my personal transmutation, helping me to rise in consciousness above past patterns, as represented by the home setting, family and friends.

Yet, this is a hierarchal signal we all can heed. For as we work to heal planetary and group conditions in mass consciousness, we also must give equal attention to our own individual transmutation. In this, the ascended masters — and also the space brothers and sisters through their hieronic projections — can assist us. As we give due attention to our personal healing and transformation, they help to levitate us into new understanding, new light-body demonstration, new realms of consciousness. They assist our ascension above our old, worn-out karmic patterns and associations.

Always we should remember that the Second Coming carries a dual meaning: the return of Sananda as Christ Jesus, spiritual ruler of Earth; and the second coming of our own Christ consciousness as sons and daughters of Father-Mother God. There cannot be one without the other. The two perform, as it were, a graceful cosmic dance, forever in tandem to manifest the New Age on Earth.

— January 24, 2009

Triangulation for Projections

HIERARCHAL BOARD MEDITATION: Contacted with a space beam from the Conrad team, I received that they have assigned one of their scout craft to accompany or pace Robert and MariLyn on their car trip this weekend to Washington, D.C. They would help provide protection. But we should also expect a *triangulation* between headquarters and D.C., linked with them in the etheric, as they would utilize our force fields for energy projections to our governmental capital.

At one point during the hieronic contact, I raised my hands and projected the energy directly to Robert (MariLyn was absent), and asked the Conrad team if Robert could receive his own confirmation of this information.

Note: Afterwards, Robert shared that he had seen golden strands of light, lines of force, coming down from the higher planes into his crown chakra, signaling a connection with the space forces. Also, he mentioned that several days ago, unbeknownst to me, he had received the same thought that a scout craft would pace him and MariLyn on their trip to Washington.

— February 18, 2009

Linkup with Triangulation

MEDITATIONS: Twice today, I felt so strongly overshadowed by the energies that all I could do was sit in my chair and meditate and rest. I was connected with the triangulation being effected with space forces accompanying Robert and MariLyn on their trip today to Washington, D.C. The strongest linkups occurred from about 2:00 to 2:45 p.m., and then again from 3:00 to 5:00 p.m. These periods coincided with connections that both Robert and MariLyn experienced en route.

— February 21, 2009

“Main Engine Start”

MEDITATION: For most of the late morning and up to about two o'clock in the afternoon, while studying and meditating, I felt a space beam. Locked into the triangulation that Conrad had mentioned at the Hierarchal Board meditation last Wednesday, I was drawn into hieronic energy projections through Robert and MariLyn, now in the Washington, D.C. area.

I received the phrase “main engine start,” a term NASA uses prior to rocket launch. The code signified not only the beginning of projections for the energy triangulation but also a revving-up for the Easter energy influx, which typically begins with Ash Wednesday (this year on February 25th).

Note: Robert later reported that in meditation this morning he felt a strong overshadowing, with energy projections to President Obama that were focused on the four-step Christ matrix of *peace, love, cooperation and coordination*; but especially *peace*.

— February 22, 2009

El Morya's Tutelage

DREAM: Under the tutelage of Mark, who was present, I was editing a manuscript for publication. In one section, an extract was to be inserted from *Birth of the Light Body*. While I did the copy-and-paste computer work, Mark looked on.

Interpretation: Mark is overseeing my work on our forthcoming book, *Anchoring the Light Body on Earth*. He is the one, after all, who compiled the original manuscript of this project in 1975. Probably he is feeding me inspirations and ideas (copy and paste) to help birth this project onto the physical plane for the mass educational program.

Metaphysically, the same interpretation could apply to his tutelage and aid in the birth of my own light body on Earth.

As it turns out, the word *tutelage*, which I have used to inscribe this dream, comes from Latin *tutela*, meaning “protection, guardian.” Certainly Mark remains one of my protective guardians.

— February 24, 2009

Amplifying Christ Matrix

MEDITATION: From about four to five o'clock in the afternoon, I was drawn again into the triangulation of projections effected from the Conrad space group, through Robert and MariLyn, to governmental leaders in our nation's capital. The hieronic broadcast was preparation for President Obama's address this evening to a joint session of Congress, during which he will present further solutions to the current economic crisis.

Note: That evening I watched the speech, felt the energy linkup, and amplified the projection of the four-step Christ matrix. To bring lasting solutions to the economic crisis, our governmental leaders must tune in to their I Am Selves, receive from Spirit the needed inspirations and ideas, and then work together in a true spirit of cooperation and coordination to manifest good results. “By their fruits you shall know them.”

— February 24, 2009

Master/Disciple Initiation

HIERARCHAL BOARD MEDITATION: For some time I projected to our governmental leaders in Washington, D.C., decreeing and holding the visualization that the United States of America step forth into a higher demonstration of its role as the New JerUSAlem, the pattern setter for governments throughout the world to manifest the New Age on Earth.

Then the vibratory energy of my light body expanded. Appearing in a near materialization, St. Germain fully overshadowed me, encompassing my entire auric field and physical form. During the hour-long communion he relayed the following (paraphrased):

“Beloved son of Earth, I am St. Germain, in I Am presence as your master teacher. Regarding my contact work with you on January 14th [see page 1], we can now begin to turn on the power. Preparations are complete and there will be new manifestations during the Easter cycle, which starts with this signal.

“My indelible bond with you, master to disciple, as demonstrated in this new fullness of light-body braiding, is now set to a degree unto which I have not achieved with a personal disciple of mine since the days of Atlantis, before the demise, when we performed similar work for the planet’s evolution. This has to do with our functions under the Motah Council of our solar system government, and through my etheric space aspect as Dr. Hannibal for coordination of the Western Hemisphere.

“We pick up those threads of the Atlantean past and reformulate them here, as of this moment, for greater effectiveness in our demonstration of teamwork as master and disciple. What we begin now, as we pass into the New Era, surpasses what we achieved then.

“Sananda has given you to me as my charge. All that we shall accomplish is solely for his Second Coming, the upliftment of all mankind, and the reestablishment of Earth within the Federation of Planets. As given through Yolanda years ago, our true work of serious transmutation now increases in power and responsibility, and will continue for the rest of your incarnation. As St. Germain, your master teacher and elder brother of the Sixth Ray, I guide you in this new spiritual initiation. So be it in truth.”

Note: In a channeling via Yolanda on February 15, 2001, Dr. Hannibal/St. Germain said: “Beloved associates, the time has arrived for the most extensive use of transmutation facilities. Motah [Phillel], who has waited for many years for the crux of his services and training for many lives, will now discover the unfoldment of the greatest attention and abilities for the Sixth Ray. . . . We have special, serious work from this point of incarnation onward. I am pleased that we have achieved the fullness of all preparation necessary for this expression.” (See Mark-Age text *Metamorphosis*, pages 75–76.)

— Ash Wednesday; February 25, 2009

Transmutation of Earth Governments

DR. HANNIBAL/ST. GERMAIN: Greetings from my mother ship #1235, in etheric coordination under code name Motah. This is Dr. Hannibal/St. Germain, in hieronic triangulation with team representatives on Earth [Phillel at headquarters in Tennessee, and Robert and MariLyn in Washington, D.C.]. In this enhanced force field, built up over a period of days, we avail ourselves of this opportunity to amplify the thought projectiles of transmutation into the atmosphere of your governmental capital, Washington, D.C.

Those elements of my command, assigned through Conrad to protect and to monitor our physical copartners in the Washington area [Robert and MariLyn], have brought to bear a concentrated cavalcade of thought forms — that is, decrees and other energy pronouncements — to carry into that thought atmosphere of your government center the agents of change at this urgent turning point in your national life and in your demonstration as the New JerUSAlem.

There are those in your government — some of them behind the scenes and well out of the spotlight — who are primed and are receptive to these laserlike missiles of Christ energy that embody the spiritual solutions to the unrelenting karmic crises affecting all in this changeover of dimensions. We have been able to effect a glimmer of awakening in our desire to offer assistance and to make an inroad to secure a more balanced transmutation and an ultimate restoration of balance. These agents of change, in turn, are capable of bringing other officials in their orbits into greater alignment with spiritual purposes.

In this interdimensional coordination, we have the effective cooperation of those in higher astral planes who remain closely connected to the outworkings of physical manifestation of governmental policies, karmic rebalancings, incoming inspirations. That includes the astral Council of Presidents, as you earlier intuited [in meditation at noon], who are hovering in the hallways, as it were, to infiltrate new ideas and musings into the receptive minds of those charged with physical governance.*

To this list are added other able-bodied astral souls who help broaden the influence. I speak here of cabinet officers, advisors, congressional members, thought leaders of high spiritual influence who assist the principals on this esteemed astral council. All of them are working overtime, one could say, to coordinate those on the physical with their I Am Selves, and with their teachers and guides connected with the etheric and celestial Hierarchy.

My space crews also are effective in amplifying this projection and this coordination with the astral Council of Presidents. We surround all with the purifying flame, to accelerate the change in order to abide by our schedule of orders from the Hierarchal Board and other higher governmental councils, planetary and interdimensional, of this solar system.

* As revealed through Yolanda many years ago, there is on the higher astral realms a Council of Presidents, comprised of past presidents of the USA and their close advisors. From the inner, they work with current governmental leaders, helping to guide the American ship of state and to inspire high ideals and spiritually-based solutions.

Your representatives of physical government thereby are feeling the pinch of this stimulus to change. In addition, you may take this parable and apply it to all governments on planet Earth. All are interconnected, whether they like it or appreciate it or not, and thereby must respond to the planetary evolutionary program in effect for your world. For planet Earth, as one whole body of I Am governance, must be brought into secure alignment with its sister planets before the solar system as a whole may move into new phases of participation with the home galaxy in the Aquarian Age now upon you.

All may be relieved truly to know that all is well for those who tune in to the ever-abiding I Am presence, the God Self expressing within the core of each one; wherein are provided all means of supply, all manner of solutions to any and every challenge you face in the transmutation of your individual self and your collective societies, wherever you may be incarnated or grouped to learn the spiritual lessons you have brought upon yourselves since time immemorial; but lessons, all the same, which you inherently are equipped to deal with, if you but seek God first and foremost in your lives and affairs and governmental actions.

From my mother ship I coordinate key units in this hemisphere for this vital change. Summalt, my compatriot, does the same in and through and by his agents in the Eastern Hemisphere. We are within the hierarchal parliament under Sananda's reign as Prince of Earth, and thereby follow his lead and direction for the transmutation of Earth and the eventual full restoration of his spiritual government, embodied as the I Am Nation, upon his return.

To all light workers, astral and physical: be receptive to our calls as we delve into the tasks before us in this Easter cycle, now engaged. Almighty and ever-present Spirit stands ready to inspire and to bring light into your realm; where His children, once astray, are now returning to His loving embrace. What Father, if His son asked him for bread, would give him a stone? It is impossible to conceive. And so must you do likewise. For you are one in Him, and live and breathe and move within the I Am presence.

So be it. I am Dr. Hannibal/St. Germain, marking the trail with clear and unequivocal signs, that you may change your mortal ways and return to the proper governance of your I Am Self. Over and out for now; but not removed, for you have our protection and our concern for your well-being, individually and planetarily, in the coming days of friendly persuasion for your transmutation into the light. *Om.*

CONRAD: Conrad checking in, only to say that we have our charges [Robert and MariLyn] under tight surveillance, and continue to provide guidance and protection as we pace you on your return. Be flexible, as we are and must be, to compensate at the first sign of any disturbance within the mass thought field through which you travel. Remain alert, but proceed with joy, giving thanks for good works done. Disengaging transmission line through ground crew Motah [Phillel]. Carry on.

Note: Dr. Hannibal contacted me about 2 p.m. and began this channeling about 2:20 p.m. Earlier, at noon and again at 1:45 p.m., I had sat in meditation and had been hieronically linked with the triangulation of projections through Robert and MariLyn. Today they are on tour at the

Mall in Washington, D.C., taking in the sights of the Washington Monument, the Jefferson and Lincoln Memorials, the Capitol and the White House.

— February 26, 2009

Testing Rods for the Hierarchy

by Phillel

May the blessings of resurrection be upon you. With this broadcast, we have entered the first full week of spring here in the northern hemisphere. It is a time of rebirth, renewal, resurrection in the light of God's purposes on Earth. In terms of the Hierarchy's influence for our spiritual growth and development, spring is known, for the major part, as a reaction cycle. We have left the cycle of action represented by the winter season, and have entered the reaction phase, where we absorb and regenerate from within the new seeds being implanted actively by Spirit for future harvest. Just as with nature all around us, it is a time of new growth.

Now, for those of you in the southern hemisphere, although you have entered autumn, it is still a reaction cycle, and therefore the same principle applies in the rhythm and flow of spiritual life on Earth.

Of course, the entire planet is well into the Easter cycle of resurrection. The spiritual Hierarchy, agents and instruments of Father-Mother God within us all, is channeling into Earth an accelerated spiritual energy influx to spur this new growth in consciousness. As light workers in the avant-garde, we receive the initial wave of this infusion of light, in order to digest and absorb it into our systems of mind, body and soul, and then to transfer it to others in mass consciousness. We all are broadcasting units of light, transmitters of this divine energy to uplift mankind and all life on Earth.

With these principal points in mind, following are excerpts from two communications channeled through Nada-Yolanda in 1970, which cover our responsibilities in Mark-Age as a test unit for the Hierarchy. All of us, therefore, are testing rods for those in the higher realms to determine the various steps and procedures for expanding the hierarchal program and injecting new energies into the planet.

Neither of these communications, ensconced in our archives, has seen the light of day since they were published in the early 1970s; so, you will find them freshly enlightening and applicable to your own wonderings and struggles at this time of great transmutation.

In a communication on April 7, 1970, Sananda spoke of Mark-Age as a hierarchal test unit. But we must include in this unit, of course, every single one of you in the *I Am Network of Light*, for you participate weekly in these spiritual projections and are vital members of Sananda's light brigade on Earth. Here is what Sananda channeled:

“As you know from past experience, you are to be the testing unit of the entire planet. Your bodies, your minds and your activities are our formulas by which we can equate that which can and must be done in a mental, spiritual, and eventual physical, manifestation. You cannot be too overly cautious about this concept and too overly concerned with it, because it is the key to your development and eventual expression as light workers and coordinators for the entire plan upon the Earth. . . .

“That which you instigate and try and test for us on the physical is for our own measuring rods, that we can sense and know what can be done and what must be done and what further steps can be undertaken in order to reinforce the overall project and goal.

“You do not need to know our problems and our methods of operation, because you have your function to perform. And, like any test that is being performed upon any level or series of consciousnesses, we do not give you all the information. Otherwise, you may not be able to fulfill that role as testing rods for the entire mass consciousness, which is unenlightened for the most part about the entire program and project.

“Therefore, in some cases you measure yourselves against the unenlightened or the darkened minds who must follow in your footsteps eventually and gradually. Though you may educate them and bring them up to date as far as is possible, their evolvement and conscientious considerations are not what yours are. Yours are limited because you are in the physical body. Theirs are limited because they have not evolved to the point of spiritual understanding and responsibility that you have reached in your expression and developing roles as leaders in this entire hierarchal program and project for our solar system.

“So, please be especially kind and compassionate about this, with yourselves first of all and then with the masses with whom you come in contact. But do not deviate one iota from the role and mission that you have come to perform, as you are required to perform certain functions for us as our stand-ins or as our physical counterparts in this program and in this evolving grace of planetary development. Therefore, when it comes upon you to perform these roles and missions, do them without equivocation and without failure, then all will go very well for us here and you there.”

A few weeks later, on April 27, 1970, Sananda again took up this theme of the light workers being testing rods for the Hierarchy.

“You have been placed upon the planet for many reasons because we need your presence there. You have been placed upon the planet because you secure us a measuring rod of detailed descriptions and reactions that can in no other way give us the satisfactory results we need to discern and to determine that which must befall the entire race of mankind upon the plane in these Latter Days. It is not like any other time in Earth plane history when great struggles and evolutionary progresses had to be expressed and instigated by us through your plane of action.

“But it is so involved in the scheme and schematic of hieronic evolvement throughout our entire solar system that we cannot risk any failure by not adhering to certain types of motivations

and manipulations due to your sending forth a certain level of vibration and total consciousness unto our level of receivership.

“Because of your training and aptitudes on other planes and planets, because of our particular evolution in the scheme of hierarchal development, we can ascertain with certainty that which must be determined and decided upon from each point of evolutionary development. Our scheme and success are dependent upon that which you do, think, feel and respond to in kind because of other and alternative reactions within the masses, within the multiple conditions and within the change of frequency as it penetrates your auric fields, emotional bodies and conscious minds.

“It is because you are this testing rod for the entire hierarchal plan as it relates to the Earth planet and its solar system part that we can continue as we have with our plans and with our progress. So, you should not hesitate to respond to our conscious endeavors in any way that is natural, most efficient and particularly important or personal to you in your present roles and status. This is not to say you have been without testings, without reevaluations and without certain considerations of faults within you, each one who is scheduled to become part of our test unit.

“But without these evaluations we have no guideline of importance and considerable detail. We are blinded by the fact that there is so much effluvia rising up out of the Earth plane environment due to the mixture of reaction by the masses to those events and conditions which befall them at the present time.”

Later, in the same message, Sananda gave the following guidance about our responsibilities as energy transmitters. Even though this communication was channeled thirty-nine years ago, the Master is speaking again to us at this very moment, here in the midst of the spring cycle of 2009.

“We are quite aware of the strain upon the individual vehicles and mental mechanisms this entails in the present environment and under the present conditions of work situations and responsibilities unto the physical plane and planet. But before you had undertaken many of the physical jobs and roles and portrayals you have before you, you were prewarned and had foretold to you that this energy release was the most important part of your soul function upon the Earth planet. . . .

“If only you will come to recognize what importance and depth are being contained in and through these transmissions of energy, you then can understand what great importance and security we have placed upon your roles, your missions, your lives incarnated upon the planet named Earth. . . . It is likely and necessary to have a fourth dimensional frequency development and participation within the third dimensional frequency pattern; which is to say, materialization, demonstration and fulfillment in every single aspect of this role and mission, according to God’s will, plan and way.

“So may it be soon. May it be demonstrated through your vehicles as you now sustain them, and may you likewise rise into new areas of expression. For as you rise from where you

are, having taken up this incarnation and responsibility and sacrifice, then all the rest can and will follow in like measure.”

Thank You, Father-Mother God, for this instruction from the Master, Sananda, he who resurrected as Christ Jesus and who shall return to lead us into new realms of light.

Adapted from I Am Network of Light tape #961B, for the week of 3/22/09. Tape is \$7.

Questions & Answers

Channelings from the Archives

This column, begun in January 2006, serializes fascinating interdimensional dialogs with the ascended masters, channeled via Nada-Yolanda and published in the early 1960s as the multivolume series Question & Answer.

Number 666

Question: Many people are confused about the number 666 in the Bible [Revelation 13:18].

Answer: Remember the lesson relayed through the channel on numbers, and when they are added or multiplied, such as 6-6-6. Two sixes, or three sixes, would emphasize the meaning of *six* on one level, two levels, or three levels of consciousness.

— John Mark; August 16, 1961

Editor's note: On August 2, 1961, addressing the meaning of numbers (see *I Am Nation News* #59, July-August 2008), John Mark channeled: “Six is another level of vibration, the beginning of another experience, the incomplete circle. Seven is full completion of physical and spiritual man.”

See also sentence #876 in *1000 Keys to the Truth*, based on the channelings: “The biblical reference to number 666 being the mark of the beast indicates mortal man, and is not any one person.”

Balance of Channel

Question: How can new channels, not in complete balance, help themselves acquire the complete balance?

Answer: Thank you very much, and you know of course I am with you constantly in this. But not because you have turned to me, or because I have desired to be with you — which I do in

any case. But you have turned yourself to Spirit, and you said: “Spirit, do with me what You will, and let me serve only God and the Christ.” Then it is given to certain ones to come forth and to work in and through and with you.

It has been given to me to do this in you, with you and for you. But you cannot set up certain conditions in Spirit for these things. So, in a sense you are limited; but in another sense you are unlimited, for you turn to Spirit, and that is Unlimited Force and Unlimited Aid. By turning yourself completely over to the spiritual forces in you and in the universe, you will receive in kind that aid as decreed by Spirit, in proper and divine order and harmony, for your evolverment and the evolverment of those who come to your aid.

In your particular case, you are surrounded by a number of physical teachers and friends of equal abilities to work with you and understand you. Also in your case, you are surrounded by a multitude of invisible teachers and forces also striving for this balance; setting up in you the proper male-positive and female-negative polarities, to bring forth those aspects, those talents of Spirit which are to be demonstrated through your particular individuality, through your particular conglomeration of talents and experiences through all your life expressions on this particular plane, known as the Earth plane; incorporating in it all other experiences from other planes which can aid and emphasize this particular incarnation and job you have to do.

I have used this as an example in your case because it is the same in all channels and in all beings who are in this work, and who are expressing Spirit in their life’s expression on the Earth at this time. This refers to anyone, whether they are a channel *of* God or whether they are a channel *for* God.

Question: Am I a channel for God?

Answer: Yes, beloved, and a very fine point. Purposely did I not explain the meaning of the phrase “a channel *of* God or a channel *for* God” before you all absorbed the difference. A channel *of* God is all men. A channel *for* God is one who chooses to be that!

— John Mark; August 16, 1961

True Origin of Life

Question: What is the true origin of human life on Earth, and when did it begin?

Answer: The true origin of life: how can you have studied Spirit and asked this question without knowing that life is the beginning and the end? Life is light. Light is God, expression of God. There are many expressions of God; some coming into existence for a short time — according to cosmic calendars and not man-made calendars, for there is no concept of life in man’s way of thinking — experiencing and evolving to a point, and then melding or evolving into another form of expression.

The expression of man has been a form of experiment and a form of evolverment much longer than any of us, who are part of mankind on all levels, can possibly find out. We are still

seeking this answer ourselves. Thank you for bringing it to the attention of those who seek it on the realm on which you are demonstrating. There is no answer to this, for there is no beginning and there is no end to life.

— *John Mark; August 16, 1961*
